Community Workshop: Energy & Sustainability

Funders List

Thank you for joining us at our Community Workshop on energy and sustainability. We have compiled this resource to help you in your search for suitable funders for projects with an environmental angle.

Getting Started

If you are aiming to fundraise for a project in this area, a great place to start is to watch the Church of England's webinars on Environmental fundraising. Part 1 covers environmental funding opportunities, Part 2 covers how to fundraise and Part 3 takes a sample of environmental funders and talks you through how you might prepare to apply successfully.
