Spotlight on Grief and Loss

With funding through the National Lottery and the Coronavirus Community Support Fund, we have been able to offer free online Grief & Loss Workshops, to equip churches wanting to support those affected by bereavement and other loss during this difficult season.

"This workshop has been one of the greatest 'gifts' of this time of restrictions".

This workshop has been run 17 times this year, equipping over 80 people to impact their communities.

"Excellent input and resources. Have already recommended session to a colleague."

In addition, we have just launched a new three week course, supporting churches and Places of Welcome, to set up bereavement support groups to continue this vital ministry.

"It was very sensitively run. The facilitators offered lots of support and encouragement, making it easy to participate; they modelled the active listening approach that they were training us in. Small group size also made sharing easier."

'Loved this course, a huge thank you to the TNT team. I run our local community foodbank and found the COVID Cash Recovery really helpful to inform our practice and give us some useful signposting tools. It is so helpful to have this amazing free resource whilst navigating finance in these tricky COVID times, would highly recommend!'
