- Projects focused on growing community resilience and promoting mental and emotional health and wellbeing, including the provision of mental health and wellbeing support groups and 1:1 counselling for people of all ages (including clergy).
- Projects focused on growing technological capability and resilience, particularly increasing digital capacity and provision, and supporting those without online access to get online through training and support.

In all cases, applicants will need to demonstrate how their project is seeking to directly respond to increasing/new need as a result of the Coronavirus pandemic.

Coronavirus Community Support Fund

<https://www.tnlcommunityfund.org.uk/funding/covid-19/learn-about-applying-for-emergency-funding-in-england>

The National Lottery Community Fund launched a £200m fund on the 22nd May 2020 aimed primarily at small to medium organisations in England. The fund is part of the Government's £750m financial support package for charities and social enterprises.

The application you need to fill in is the same whether your funding comes from the Government or from The National Lottery Community Fund, so you don't need to tell us which pot of funding you want to go for. If you're a group that's looking for government funding, because you can't accept funding from The National Lottery, please tell us in your application.

We'll prioritise:

- Organisations supporting people and communities who experience disproportionate challenge and difficulty as a result of the COVID-19 crisis
- Organisations providing services and support for vulnerable people, for which there will be increased demand as a result of the COVID-19 crisis
- Organisations which connect communities and support communities to work together to respond to COVID-19

We know that small and medium-sized charities are likely to be more vulnerable right now, so we encourage applications from those organisations. We can fund activities supporting people and communities affected by COVID-19. We can also help organisations overcome any acute financial difficulties they're facing because of the pandemic. We are working with others to ensure this funding reaches communities as quickly as possible, including looking at extending our reach with social enterprises and community led community organisations and businesses. We are having a number of conversations to finalise partnering arrangements. We will keep you informed as soon as these go live. If you are thinking of applying for the National Lottery Coronavirus Community Support Fund, NCVO and Charity Finance Group have made available this handy film with a walk through of the fund - including who is it for, what is expected in applications and top tips for applying.

<https://www.youtube.com/watch?v=Tv0upR3HmTQ&feature=youtu.be> The National Lottery Community Funding have paused their other funding programmes including Awards for All and

Reaching Communities to concentrate on administering the Coronavirus Community Support Fund. For more information please see their website: <https://www.tnlcommunityfund.org.uk/>

The Morrisons Foundation COVID-19 Homeless Support Fund

<https://www.morrisonsfoundation.com/latest-news/covid-19/>

The Morrisons Foundation recognises that homeless people are particularly vulnerable to Covid-19 because they are more likely to have underlying health conditions and are less able to access basic sanitation.

Homelessness charities are raising concerns that if someone is sleeping rough or in a crowded night shelter, it's impossible to self-isolate and maintain social distance so help is needed more than ever before.

In response to this, the Morrisons Foundation Trustees have pledged £500,000 towards the Homeless Support Fund. The fund is designed to support charities caring for the homeless during the coronavirus outbreak and ensure help gets to those who need it most. Applications will be considered up to a maximum of £10,000, but the emphasis is on smaller amounts to enable as many charities as possible can be supported from the fund.

Who Can Apply?

Registered charities that care for the homeless can apply for support to cover three broad areas:

- Outreach and support for rough sleepers, including provision of essentials
- Delivery of services in hostels and shelters
- Information and advice

NSUN is administering this smaller fund to support user-led organisations (ULOs) and smaller, unconstituted community groups in England, who might not otherwise be eligible for a grant. Grants of up to £1000 will be available to support community action, peer support, mutual aid and other activities that will make a direct difference to the lives of people living with mental ill-health, trauma and distress during this Covid-19 period. Historically, unconstituted groups have been left out of these funds so we're delighted that there is a commitment to supporting ULOs and community groups.

Will my group be eligible?

The NSUN grants are available to User Led Organisations across England who need additional funds to deliver their support and activities during Covid-19. You may be a peer support group, a mutual aid group, a community group, a Disabled People's Organisation (DPO), or a ULO (this is not an exhaustive list). The NSUN grant is for organisations or collectives or groups which may or may not be constituted (but are not set up as a charity or a community interest company (CIC), for example) or who otherwise are not eligible for the main Coronavirus Mental Health Response Fund. You will need to be a member of NSUN. Membership is free for ULOs and community groups, and you can sign up <https://www.nsun.org.uk/member-join>

Tudor makes grants to smaller community-led groups that support people at the margins of society. Tudor operates a two-stage application process, so ask all applicants to complete a brief first stage proposal. We are keen to work with organisations that have a real understanding of the challenges facing the communities they support, and a clear sense of the difference they seek to make through their work. We are particularly interested in supporting work that develops and promotes the social connections and relationships which make such an important contribution to the well-being and quality of life of individuals, and which strengthens communities. There is no maximum or minimum grant, though in practice it is unusual for us to make a grant of less than £10,000.
